

ENERGY EFFICIENCY SERVICES DEVELOPMENT OF QUALITY ASSURANCE FOR ENERGY EFFICIENCY SERVICE PROJECTS

Public workshop in form of a Round-Table-Discussion

27 March 2019
14:00 – 17:00

Hotel Bergs
Elizabetes street 83/85
Glass hall

Workshop's programme

13:45 – 14:00	Get together		
14:00 – 14:15	Welcome and introduction to the project	Agris Kamenders	Ekodoma (LV)
14:15 – 14:45	Financing aspects of energy efficiency services: Introduction of QualitEE Financial Guidelines	Klemens Leutgöb	E7 Energie Markt Analyse GmbH (AT)
14:45 – 15:00	Open discussion		
15:00 – 15:30	Coffee break		
15:30 – 16:05	General aspects and business models of certification schemes	José Ignacio Briano	CREARA (ES)
16:05 – 16:20	Open discussion		
16:20 – 16:45	DECA Seal: Experiences made with a self-declaration scheme in Austria	Klemens Leutgöb	E7 Energie Markt Analyse GmbH (AT)
16:45 – 17:00	Wrap up and Outlook	Daniela Bachner	E7 Energie Markt Analyse GmbH (AT)
17:00 – 17:40	Networking / Buffet		

Target group: State institutions, national and international Energy efficiency service providers & facilitators, financial institutions, Energy efficiency and RES project managers

No Fees

Language: English

Registration: online (<https://goo.gl/forms/QWpaZWmS5jObH7OA3>) or by email agris@ekodoma.lv (Agris Kamenders)

Background information:

The international market for energy efficiency projects is still largely untapped and one of the barriers is the lack of viable financing. While the collateral value of most energy efficiency projects is rather low, generated cash flows as the main source of the value of energy efficiency projects are not recognized as a relevant source of repayment. The [Financial Guidelines](#) provide financial quality criteria (FQCs) that help financial institutions to assess the bankability of EE projects and at the same time support clients and ESCOs to provide sufficient documentation of their projects.

The aim of the public discussion workshop is to inform and involve stakeholders and to refine the guidelines.

The **QualitEE** project, funded by the Horizon 2020 program, aims to drive responsible investment in energy efficiency services in the building sector by increasing the trust of clients and

financial institutions in energy service providers. Trust will be increased by standardising quality criteria for energy efficiency services and institutionalising the quality assurance process, thereby reducing the complexity of energy efficiency services and increasing service quality.

General Data Protection Regulation: With your registration you agree that your personal data is saved on the server of e7 Energie Markt Analyse GmbH until the end of the QualitEE project and used exclusively for reporting to EASME. Photographs of the event will be made and used for documentation on the [QualitEE website](#). For registration write agris@ekodoma.lv

The QualitEE project and SEFIPA project both receive funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 754017 and 696008.
